Art Unit: 2612

1. The following is an examiner's statement of reasons for allowance:

The IDS filed 4/6/06 included some of the references applied against one or more claims in a PCT application related to the present U.S. application; however, none of the currently pending claims in the present U.S. application are equivalent in scope to any of the PCT claims against which the IDS references were applied. Therefore, the basis for allowing the present U.S. application remains the same as it was at the time the previous Notice of Allowance was mailed (12/20/05).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The art cited by applicant in an IDS filed 4/6/06 has been considered (note that the Petite et al reference was previously made of record). Schulze et al (US 2002/19584) was applied against one or more claims in the related PCT application (and was listed on the search report of that application, which search report was one of the documents cited by applicant in the IDS filed 4/6/06).

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas J. Mullen, Jr. whose telephone number is 571-272-2965. The examiner can normally be reached on Monday-Thursday from 6:30 AM to 4 PM. The examiner can also be reached on alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Daniel Wu, can be reached on (571) 272-2964. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 571-272-2600.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications
